Projects

Bewakoof   Live Demo Link   Github Repo Link

HTML CSS JavaScript

- Designed and developed a responsive e-commerce website using HTML, CSS, and JavaScript.
- Implemented search functionality to allow users to easily find products based on keywords.
- Integrated a secure payment gateway to facilitate smooth and secure online transactions.
- Optimized website performance by minimizing page load time and implementing browser caching.
- Worked independently to deliver the project within the given timeline.

Green Paradise   Live Demo Link   Github Repo Link

HTML CSS JavaScript Firebase Razorpay

- Developed a fully functional e-commerce website for plant enthusiasts using HTML, CSS, and JavaScript.
- Implemented features such as browsing and searching for plants, viewing detailed plant descriptions, adding plants to the shopping cart, and completing secure checkouts.
- Utilized Firebase and Razorpay for user account creation and payment processing respectively.
- Responsive design implementation to provide an optimal user experience across mobile and desktop devices.
